Department Seminars  
Fall, 2015

All seminars are held in the Pearson Chemistry Building, 62 Talbot Avenue in Medford, Room P-106 at 4:30 pm unless otherwise noted. Refreshments will be served thirty minutes prior to the seminar in P319. For further information please contact Debbie D’Andrea at (617) 627-2649 or by email debbie.dandrea@tufts.edu

Visitors Are Welcome

September 8  Prof. Seth Herzon, Yale University  
“Synthesis and Study of Complex Natural Products”

September 15  Prof. Ratmir Derda, University of Alberta  
“Organic Synthesis on the Surfaces of Bacteriophages: Genetic Selection of Small Molecules and Development of Reactions”

September 22  Prof. Leon Sanche, University of Sherbrooke  
“From Low Energy Electron DNA Damage to Chemoradiation Therapy”

September 29  Prof. Nate Traaseth, New York University  
“Probing the Ion-Coupled Transport Mechanism of the Multidrug Efflux Pump EmrE”

October 6  Dr. David Bem, Dow Chemical Company  
Title: TBA

October 13  Prof. Anna Mapp, University of Michigan  
Title: TBA

October 20  Prof. Samuel Stupp, Northwestern University  
“Supramolecular Materials for Energy and Medicine”

October 27  Dr. Mark Ledeboer, Vertex Pharmaceuticals  
Title: TBA

November 3  Prof. Robert Hamers, University of Wisconsin-Madison  
Title: TBA

November 12  Prof. Daniel Raleigh, Stony Brook University  CANCELLED  
Title: TBA

Thursday

November 17  Prof. Amy Herr, University of California, Berkeley  
“Targeted proteomics with single-cell and sub-cellular resolution”

December 10  Prof. Aaron Esser-Kahn, University of California, Irvine  CANCELLED  
Thursday  
“Chemical Biology Approaches to Innate Immunity : Probing a Code Without a Key”
